Washington, D. C. 20505

01 MAY 1984

Mr. David C. Humphrey
Archivist, Lyndon B. Johnson Library
Austin, Texas 78705

Dear Mr. Humphrey:

We have reviewed the 40 documents that you sent to us from your holdings in the Lyndon B. Johnson Library under Case NLJ/CBS 1. These documents are responsive to a subpoena submitted by CBS, Inc. We have entered our review decisions on the document listing which you sent along with the documents. Our actions in summary are as follows:

a. A total of 28 documents were declassified in their entirety. Please note that two parts of documents number 37 have been declassified and are included in this group while two other parts required sanitization and are included with the sanitized documents described in paragraph b below.

b. Document number 9 and two parts of document number 37 are approved for release provided the red bracketed portions are deleted. The full text copies are classified, but the redacted copies are considered declassified and can be released to the requestor. We are enclosing a full text and a sanitized version of these documents.

c. The following numbered documents are not being released because CBS has stipulated that documents containing raw field intelligence reporting are not necessary to the case and need not be included: documents numbered 2, 13, 16, 17, 20, 33, 34, 38, and 40. These documents were not reviewed for declassification and are being returned for your files.

d. Documents numbered 7 and 31 are denied in toto under Executive Order 12356, Section 1.3(a)(4), to protect intelligence activities, sources and methods. Document number 7, however, has been downgraded to SECRET.

Sincerely,

151

Information Review Officer
Directorate of Intelligence
